

Swiss Diamond®

DIAMOND REINFORCED NON-STICK COOKWARE

Ranked #1 Nonstick Cookware by the leading U.S. consumer ratings organization

- + Made in Switzerland
- + Patented diamond-reinforced nonstick coating for durability, easy clean-up, and superior browning and searing.
- + Ideal for a lifetime of healthy eating - no added oil needed for cooking.
- + Eco-friendly: PFOA-free production, recyclable aluminum bodies, made in part with hydropower from the Swiss Alps.
- + Thick, perfectly flat base for stability and even heating with no hot spots.
- + Cast aluminum body will not warp.
- + Rivet-free interior prevents food build-up.
- + Ergonomic handles designed to stay cool on the stovetop.
- + Oven safe up to 500° F.
- + Tempered glass lids with adjustable steam vent for moisture control.
- + Suitable for use on all standard cooktops. Induction series available.
- + Limited Lifetime Warranty covering manufacturing defects.

New HD Coating outperforms the competition

Diamonds are a chef's best friend...
Durable. Naturally nonstick. Better heat conductor than metal.
